# Seminar on **Dredging and Reclamation**

19 – 23 March 2012, Recife, Brazil

## FOR WHOM

For (future) decision makers and their advisors in governments, port and harbour authorities, off-shore companies and other organisations that have to execute dredging projects, the International Association of Dredging Companies organises the International Seminar on Dredging and Reclamation. The IADC Seminar will held from 19 – 23 March 2012.

In addition to basic dredging methods, new equipment and state-of-the-art techniques are explained

## GENERAL

Since 1993 IADC has, often in co-operation with local technical universities, provided a week-long seminar especially developed for professionals in dredging-related industries. These intensive courses have been successfully presented in Delft, Singapore, Dubai, Buenos Aires, Abu Dhabi, Bahrain and Mexico.

As is appropriate to a dynamic industry, the seminar programme is continually updated. In addition to basic dredging methods, new equipment and state-of-the-art techniques are explained. The Seminars reflect IADC's commitment to education, to encouraging young people to enter the field of dredging, and to improving knowledge about dredging throughout the world.

### The Seminar in Brief

To optimise the chances of the successful completion of a project, contracting parties should, from the start, fully understand the requirements of a dredging project. This five-day course strives to provide an understanding through lectures by experts in the field and workshops, partly conducted on-site in order to give the "students" hands-on experience.

## SUBJECTS

 Some of the subjects covered are:

- overview of the dredging market and the development of new ports and maintenance of existing ports;
- project phasing (identification, investigation, feasibility studies, design, construction, and maintenance);
- descriptions of types of dredging equipment and boundary conditions for their use;
- state-of-the-art dredging and reclamation techniques including environmental measures;
- site and soil investigations, designing and estimating from the contractor's view;
- costing of projects and types of contracts such as charter, unit rates, lump sum and risk-sharing agreements;
- design and measurement of dredging and reclamation works

Descriptions of types of dredging equipment and boundary conditions for their use.

# Seminar on **Dredging and Reclamation**

19 – 23 March 2012, Recife, Brazil

## SITE VISIT

An important feature of the seminars is a trip to visit a dredging project being executed in the given geographical area. This gives the participants the opportunity to see dredging equipment in action and to gain a better feeling of the extent of a dredging activity. Each participant receives a set of comprehensive proceedings with an extensive reference list of relevant literature and, at the end of the week, a Certificate of Achievement in recognition of the completion of the coursework.

## LOCATION

The next IADC Seminar will be organised from 19 – 23 March 2012. The seminar starts Monday 19th 8:45 hrs and ends Friday 23 March 17:30 hrs.

*Please note that full attendance is required for obtaining the Certificate of Achievement.*

Includes a Site visit

## PROGRAMME

Highlights of the programme are:

- Day 1** Why Dredging? The Need for Dredging/Project Phasing
- Day 2** What is Dredging? Dredging Equipment/Survey Systems (includes a Site Visit)
- Day 3** Production of various types of dredgers (includes a visit to a dredging Yard)
- Day 4** Preparation of a Dredging Contract, Reclamation, Tender, Cost Pricing
- Day 5** Contracts

## COSTS

The fee for the week-long seminar is € 3,100.- (VAT inclusive). This includes all tuition, seminar proceedings, workshops and special participants dinner, but excludes travel costs and accommodations. Assistance with finding hotel accommodation can be given.

# Seminar on Dredging and Reclamation

19 – 23 March 2012, Recife, Brazil

Representatives of port authorities, companies and individuals with an education level equivalent to at least a B.Sc. or comparable work experience, interested in attending should register as soon as possible since the number of participants is limited.

## REGISTRATION FORM

Male:  Female:

Initials: ..... Title: .....

Surname: ..... First name: .....

### Company address

Company: ..... Phone: .....

Address: ..... Mobile: .....

Postal code: ..... Fax: .....

City: ..... Email: .....

State: ..... Profession: .....

Country: .....

### Dietary requirements:

- Vegetarian
- Gluten-free
- Muslim
- Other: .....
- I would like to participate in this course. Please register me with the above-mentioned details. A copy of my passport and a business card is attached.

### About payment/registration:

Please note that your registration can only be confirmed once the full registration fee has been received on IADC's bank account.

Bank details for payment:

- Payee: IADC
- Address: Alexanderveld 84, 2585 DB The Hague, The Netherlands
- Bank Name: Van Lanschot Bankiers
- Bank account no: 22.65.47.833
- Bank address: The Hague, The Netherlands
- Account name: International Association of Dredging Companies
- Bank codes: IBAN NL62FVLB0226547833; BIC: FVLBNL22

### Visa

About visa for Brazil: Please check with the Brazilian Embassy in your country of residence if a visa is required in your case. You can have a preliminary check on this website: <http://brazil.visahq.com/>
