Background:

The Organization of American States (OAS), through the Government of Chile Scholarship and Training Project for CARICOM Countries, invited citizens of CARICOM member States to participate in a Fundamentals of Disaster Preparedness and Management course or Managing Disasters and Emergencies course at the University of Trinidad and Tobago (UTT) from November 19 – December 14, 2018.

The Courses attracted working professionals from the Caribbean with backgrounds or work-related duties in emergency management and disaster response, including first responders, law enforcement and emergency management personnel, policymakers, program directors, urban planners, NGOs, public health workers and practitioners from the private sector.

Scholarship Recipients and Benefits:

After a careful review of the merits and overall credentials of the candidate, including academic and professional background, and indicators of the highest potential for impact upon return to their countries of origin, sixty-two (62) awardees were selected to receive the scholarship with full benefits provided by the OAS and UTT. The table above informs of the 62 scholarship recipients participating in the Courses.

To verify the names of the scholarship recipients, please visit the [OAS Scholarship Website](#) or contact Ms. Nichole Duncan at nduncan@oas.org in the OAS Department of Human Development, Education and Employment.
