SUMMA

Laboratorio de Investigación e Innovación
en Educación para América Latina y el Caribe

+ **Our Goal: Impact decision-making of education policies and classroom practices**

+ **SUMMA's model: mobilizing evidence to promote innovation in education**

+ Systematization: Building on existing knowledge

The screenshot displays the 'Effective Education Practices Platform' interface. At the top, it features logos for the Education Endowment Foundation, Educación FCH (Fundación Chile), and BID (Banco Interamericano de Desarrollo). The main content area is a list of educational practices, each with a title, a brief description, and a set of icons representing cost, evidence strength, and impact. On the left, there is a 'Filter' sidebar with three sliders: 'Cost' (ranging from 0 to 5), 'Evidence' (ranging from 0 to 5), and 'Months Impact' (ranging from +1 to 5). A 'Clear' button is located below the filters. The practices listed are:

Practice	Cost	Evidence Strength	Months Impact
Meta-cognition and self-regulation High impact for very low cost, based on extensive evidence.	1	4	+8
Feedback High impact for very low cost, based on moderate evidence.	1	4	+8
One to one tuition Moderate impact for high cost, based on extensive evidence.	5	4	+5
Homework (Secondary) Moderate impact for very low cost, based on moderate evidence.	1	4	+5
Peer tutoring Moderate impact for very low cost, based on extensive evidence.	1	4	+5

+ Systematization: Learning from experiences across the world

Evaluation and selection of institutions
(Registry of over 1,700 identified experiences)

Selection of 150 cases, based on the quality of available
evidence, type of intervention, scalability,
and other relevant criteria.

New filters application: results and positive
impact, degree of innovation,
replicability, qualitative
evaluation of cases

+ Where are we heading?

- ✓ Institutional and financial consolidation
- ✓ Strengthening of partnerships and networks in SUMMA countries and beyond
- ✓ Create a space for experimentation and scaling-up
- ✓ Expand systematization of evidence to macro-policy level
- ✓ Better contextualisation and use of evidence

+ Supporting the IEA

- ✓ Dissemination and Use:
 - ✓ Platform of Effective Practices
 - ✓ Map of Innovation
- ✓ Development of Implementation Guidelines for Schools
