

ST. VINCENT AND THE GRENADINES

- St. Vincent and the Grenadines (SVG) does not have a National Drug Observatory /Drug Information Network.
- The SVG National Drug Council was established in February 2018.
- We are in the process of establishing the National Drug Secretariat and it is anticipated that it will be a budgeted unit of the Ministry of Health, Wellness and the Environment.
- Discussions on the issue of a National Drug Observatory has commenced at the ministerial level. This seminar will certainly serve to accelerate the process and hopefully by the next meeting of the National Drug Observatories in the Caribbean, St. Vincent and the Grenadines will be able to provide a comprehensive report on our activities.
