

**BASE TEXT TO DRAFT RECOMMENDATION ITU-T Q.FW_CCF “FRAMEWORK FOR
SOLUTION TO COMBAT COUNTERFEIT ICT DEVICES”**

The XXVII Meeting of the Permanent Consultative Committee I: Telecommunications/Information and Communication Technologies (PCC.I),

DECIDES:

1. To continue the discussions of the base text of the Draft Recommendation ITU-T Q.FW_CCF “Framework for solution to combat counterfeit ICT Devices”, presented by the Brazilian administration, on the Correspondence Group to Examine the Issues Relative to Counterfeit, Substandard and Unapproved Mobile Devices, created by PCC.I/RES. 222 (XXIV-14).
2. To appoint the administration of Brazil, represented by João Alexandre Zanon (zanon@anatel.gov.br) to coordinate the discussions and consolidate the comments into the final text to be submitted by CITELE to the next ITU-T Question 8 of SG11 meeting as an Inter-American Contribution – CI, after the necessary support of the member’s States as been obtained.
3. To request the Member States interested to participate on the discussion of this document to submit their representatives contacts to the coordinator.
