

**PCC.II/DEC. 17 (VIII-01)<sup>1</sup>**

**Liaison statement from PCC.II to PCC.III consideration of the harmonization  
of the amateur services allocations around 7 MHz**

The VIII Meeting of the Permanent Consultative Committee II: Broadcasting,

**DECIDES:**

To send to PCC.III the liaison statement from PCC.II to PCC.III regarding the consideration of the harmonization of the amateur services allocations around 7 MHz as indicated in the Annex to this decision.

**ANNEX TO PCC.II/DEC.17 (VIII-01)**

**LIAISON STATEMENT FROM PCC.II TO PCC.III**

**CONSIDERATION OF THE HARMONIZATION OF THE AMATEUR SERVICES  
ALLOCATIONS AROUND 7 MHZ**

PCC.II notes that PCC.III will be studying the harmonization of amateur services allocations around 7 MHz for the purpose of developing CPM text for WRC-03 agenda item 1.23.

The objective of these studies is to find the optimum contiguous spectrum around 7 MHz for the amateur services worldwide, taking into account the needs of services in adjacent allocated bands.

PCC.II is concerned about possible impact on the broadcasting service and would appreciate the opportunity of receiving and contributing to the draft CPM text.
