

**PCC.III/RES. 73 (XI-98)<sup>1</sup>**

**COMPILATION OF INFORMATION ON THE PRESENT AND PLANNED USAGE OF  
THE BAND 746-806 MHZ.**

The Eleventh Meeting of the Permanent Consultative Committee III: Radiocommunications,

**CONSIDERING:**

- a) That PCC/DEC.27 (X-98) requested CITELE Member States to examine their present and planned use of the band 746-806 MHz and provide such information at this Meeting;
- b) That this information would be shared with PCC.II for its consideration.

**NOTING:**

- a) That the Eleventh Meeting of PCC.III decided to give additional time to Member States to provide the requested information to PCC.III;
- b) That only a few administrations submitted the requested information (PCC.III Doc. 1080, 1090, 1113, 1120, 1130);
- c) That footnote S5.293 of the ITU Table of Frequency Allocations raises the secondary status of fixed and mobile services to primary in a number of CITELE Member States in the bands 746-806 MHz and 470-512 MHz.

**RESOLVES:**

- 1. To continue the examination of the band 746-806 MHz with a view to identifying their current and planned use of this band, and to request CITELE administrations to consider the possible development of other terrestrial services in this band;
- 2. To request CITELE administrations to submit this information prior to the next meeting of PCC.III;
- 3. To request the Executive Secretariat to compile this information for presentation at the next meeting of PCC.III;
- 4. To request CITELE administrations to also consider, as appropriate, the status of fixed and mobile services in this band during their preparations for WRC-2000,

**FURTHER RESOLVES:**

To forward, by the Executive Secretariat, this compiled information to PCC.II for its consideration and comment.
